Seal Peel

REF:

25X1

1. The above referenced dispatch has been received with enclosed sample of Seal Peel, formulation HR-45-F-18. In order to evaluate this hot dip compound, this office is taking steps to obtain more of the same material and will submit it to ODIBEX for testing for compliance with Specification JAN-C-149, Type II, Strippable Hot Dip Compounds.

2. It is believed that this Specification is the best available standard for these hot dip materials.
